## Questions

Asking questions in Spanish is easy! Just change the pronunciation of any statement to a question by lifting your voice at the end.

 Tú tienes un perro.

You have a dog.

## Family

🔊 ¿Tú tienes un perro?

Do you have a dog?

Notice that all questions in Spanish begin with an upside down question mark (¿).

## Tú vs. tu

Accent marks can be really useful! In Spanish, a word might have a different meaning depending on whether it does or doesn't have an accent mark.

For example, when **tú** has an accent, it means **you**.

## Family

Without an accent, **tu** means **your**.

 ¡**Tu** gato es grande!

**Your** cat is big!
